

Page 1: The Sensory – Where Investments Grow & Life Thrives

Welcome to The Sensory, where land is not just owned—it is lived. Positioned along the Mumbai Highway near Kamkole which yielded 12%-15% consistently over the last 5 years, The Sensory sits at the heart of a high-growth corridor in the entire South India (East-West link) NH-65 :

- Very proximate to NIMZ Zaheerabad – a central government initiative, India's 1st manufacturing smart city spanning over 13,500 acres and positioned to attract INR 50,000 crores investment in 3 years and paving way for 2,00,000 jobs is major regional economic driver
- Minutes from ORR, Proposed Regional Ring Road, 30 TMC capacity Singur Reservoir: a vital economic lifeline for the region, hub to premier educational institutions like IIT Hyderabad and GITAM University and Woxen University which play a catalytic role in human capital development
- Centrally located to major revenue divisions such as Zaheerabad, Bidar, Sadashivpet, Sangareddy and Medak.
- Positioned centrally to three rich states Telangana, Karnataka and Maharashtra – A tri state advantage
- Seamlessly connected via road NH-65, rail link Zaheerabad and Kohir Railway stations and air routes Bidar and Shamshabad airports. Proposed Mumbai – Hyderabad bullet train runs closely.
- Adjacent to proposed 120 ft major seed access road that connects NIMZ to NH -65 is an excellent economic catalyst

Page 2: Standalone Farmhouse vs. The Sensory – A Smarter Alternative

Challenges of Owning a Standalone Farmhouse	The Sensory Integrated Advantage
Complex legal checks, surveys & documentation	Legally vetted, geotagged plots with clear titles
No infrastructure or road access	Ready roads, water pipelines & electricity provisioned
Fencing, compound wall additional costs and hassle	Secure fencing, bio-barriers and gated community
Need to recruit maintenance, housekeeping staff at own cost	2 years of professional maintenance included and property managed by professional staff
Security concerns	24/7 trained security with CCTV & gated access

Borewell and electricity transformer are additional costs	
Heavy capital expenditure upfront and heavy recurring OPEX	One-stop turnkey solution with minimal CAPEX and OPEX
Difficult for families as facility like security, food and other utilities procurement	Community amenities, restaurant and safety for all generations

“We’ve solved the problems—so you can focus on the pleasures.”
